

There is no volume, but only the kaleidoscope of light : Urban heterotopia space of hyper density beyond high-density in Seoul, Korea. But the 'Seoul-forest', the man-made forest on the deleted topography doesn't follow Seoul's urban character.

The new various architectural topography serves various possibilities of activities in the overlapped space. The proportion of these

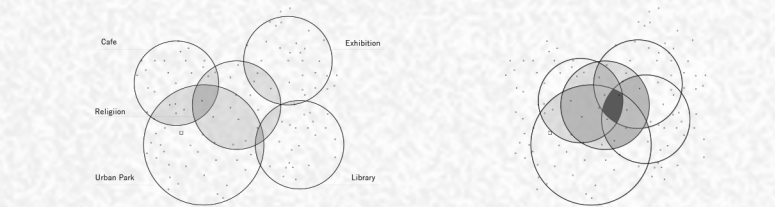

5 programs and also the overlapped space is adjusted by the level of lightness upon the density pattern of MTNE and the time.

This MTNE, Material never has been existed, is the only one material to accommodate the various change of people's desire of space, activity in the city with high density. This kaleidoscope of light changes the people and the city, and get changed again by them.

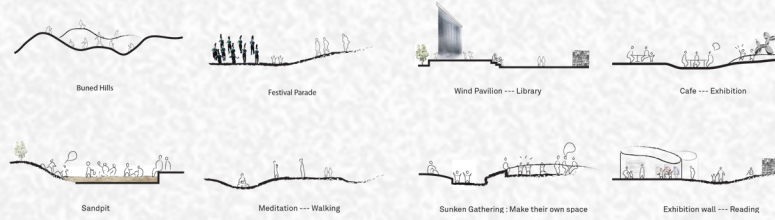

Light --- Activity

Program	Light Level	Activity
Religion	■	Pray / Think
Urban Park	■ □	Talk / Feel the weather / Think / Walk
Library	■ □	Read / Search / Think / Walk
Exhibition	■ □	Look / Search / Appreciate / Think / Walk
Cafe	■ □	Talk / Eat / Cook / Feel the weather / Think / Smell coffee / Stay at one's space = their own temporary space

Depth --- Activity --- Light = Hyper Space Experience

Measurement : Lightness by the depth of space
